1 INTRODUCTION

Human Force is the University's casual timesheet system implemented to make submitting and approving timesheets quick and easy for both casual employees and supervisors.

Administration users can make changes to employee details via the Human Force portal or 'front-end' of the system. Some admin users (Super users) will also have access to Time Target, which is the systems reporting tool or 'back-end' of the system. The network connection licences to the 'back-end' of the software are limited.

Within **Human Force** administration users can:

- a) View employee details
- b) Add/amend business units and project grants assigned to casual employees
- c) Add/amend casual teaching pay codes (roles) for employees
- d) Add pay codes (roles) to business units and project grants

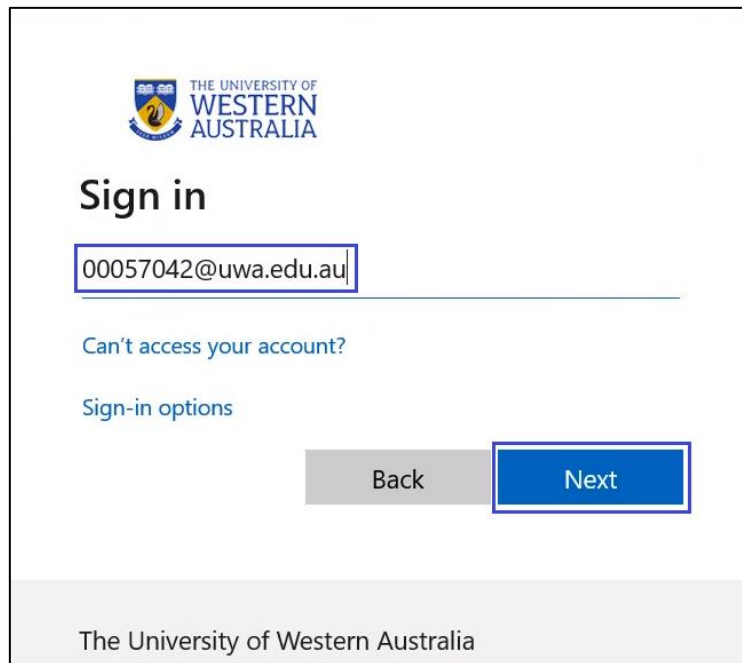

NOTE:

- In Human Force the role is the equivalent to the pay code for casual teaching staff, or position title for casual general staff.

2 HUMAN FORCE

2.1 LOGIN TO HUMAN FORCE

- To access Human Force go to: <https://uwatimesheets.humanforce.com/>. If you are already logged into another Single Sign On (SSO) session you will be taken directly to your home screen.
- If not already logged into another session, on the Sign in window, enter your 'Staff ID'@uwa.edu.au and click [Next]

The screenshot shows the 'Sign in' page for The University of Western Australia. At the top is the university's logo. Below it, the text 'Sign in' is displayed. A text input field contains the email address '00057042@uwa.edu.au'. Below the input field, there is a link 'Can't access your account?' and a section titled 'Sign-in options'. At the bottom right, there are two buttons: 'Back' (grey) and 'Next' (blue). The footer of the page reads 'The University of Western Australia'.

- In the Enter password field, enter your Uni ID and click [Sign in]

The screenshot shows the 'Enter password' page for The University of Western Australia. At the top is the university's logo. Below it, the email address '00057042@uwa.edu.au' is displayed with a back arrow. Below this, the text 'Enter password' is shown above a password input field filled with dots. Below the input field, there is a link 'Forgotten my password' and a blue 'Sign in' button. The footer of the page reads 'The University of Western Australia'.

NOTE:

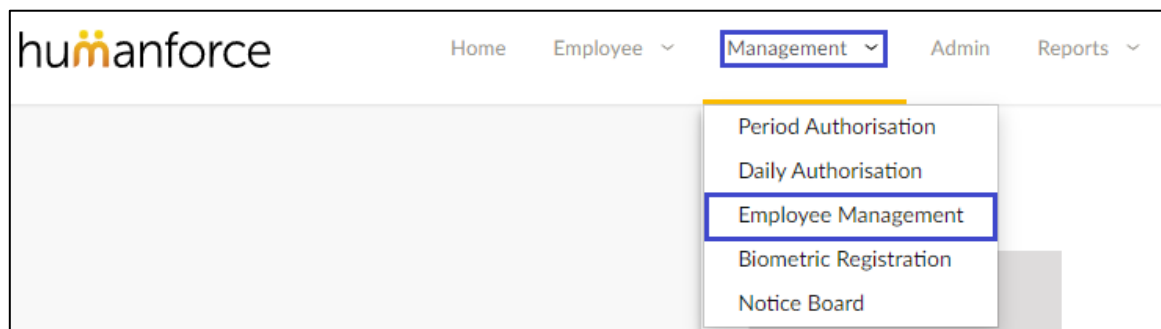

- The preferred browsers are Google Chrome or Firefox
- The sign in can also be accessed from the Staff Intranet, Casual timesheets page or from My Apps
- For casual employees to access Human Force, Uni ID (UWA's Access Management System) must be set up and activated

2.2 SEARCH FOR AN EMPLOYEE

Employee's details are automatically uploaded from Ascender Pay (Alesco) which is the University's payroll system. In Human Force search for an employee by name or view by business unit and project grant.

2.2.1 Search for an employee by code or name

- a) From the Home page, select *Management>Employee Management*

- b) Search by *Employee Code*, *First Name* or *Last Name*. Search criteria will display. To select the employee double click using the mouse or click to select the employee and click [Edit]

The screenshot shows the 'Employee Management' page. At the top, there is a search bar with three dropdown menus: '[All Business Units]', '[All Projects / Grants]', and '[All Roles]'. To the right of these is a checkbox labeled 'Show terminated'. Below the search bar are four input fields: 'Employee Code', 'First Name', 'Last name', and 'Column Settings'. Below these fields is a table with the following columns: 'Employee Code', 'First Name', 'Last Name', 'Employment Type', 'Default Business Unit', 'Default Role', 'Start Date', 'Default Project / Grant', and 'Birth Dat'. The table contains two rows of data. Below the table, there is a 'Page: 1' indicator and a 'No of employees: 2' message. At the bottom, there are three buttons: 'New', 'Clone', and 'Edit' (highlighted with a blue box). Below the buttons, there is a legend: 'Incomplete Profiles' (red square), 'Terminated Profiles' (grey square), 'Non-Live Award Profiles' (yellow square), and 'BOLD - Employees with profile overrides'.

Employee Code	First Name	Last Name	Employment Type	Default Business Unit	Default Role	Start Date	Default Project / Grant	Birth Dat

> Employment	
> Business Units, Project / Grant, Roles	
> Qualifications	
> Other Info	

NOTE:

- If the employee was not retrieved, reasons could be as follows:
 - Contract not entered to Ascender Pay (Alesco)
 - In PeopleSoft the project grant needs to have 'Expense Approval' ticked to import into Human Force. If the project grant added to the employee in Ascender Pay (Alesco) is a project grant that does not have this ticked the employee details will not import.
- If the employee is in Human Force but has an incomplete profile (in red, refer 'Lily Smith' on the Employee Management search screen on page 5) double click using the mouse or click to select and click [Edit] to view their details
- Select *Employment* and confirm the Start Date. Check and confirm they have a Default Business Unit Default Project/Grant and Default Role
- If the employee has previously completed employment with the University, they will have a termination date entered on their profile. If they are employed again by the University the 'Termination Date' is still populated. Contact timesheets-humanforce@uwa.edu.au to confirm and remove the termination date or a new contract is required.

2.2.2 View employees by business unit/project grant

- From the Home page, select *Management>Employee Management*
- Click on the drop down list for *[All Business Units]* and select the required business unit and *[All Projects/Grants]* to select the required project grant

NOTE:

- When the business unit is selected all available project grants will display
- Click [Column Settings] to change the order, add or remove columns

2.3 ADD A DEFAULT BUSINESS UNIT AND PROJECT GRANT TO CASUAL TEACHING EMPLOYEES

A default business unit and project grant displays these fields first to the employee when entering their timesheet.

- From the Home page, select *Management>Employee Management*
- Search by *Employee Code, First Name* or *Last Name*. Search criteria will display. To select the employee double click using the mouse or click to select the employee and click [Edit]
- Select *Employment*. Click on the *Default Business Unit*: to select the BU, then *Default Project/Grant*: to select the PG and *Default Role*: drop down lists to change to the required default. Click [Apply]. Click [Done] to return to the *Employee Management* screen

Note:

- When adding a default, ensure you enter the business unit and then the project grant. This will ensure it is a valid BU/PG combination. If unsure Staff Resources can check this in PeopleSoft
- This can also be done from *Business Units, Project/Grants, Roles*, however you will need to scroll to search through the Business Unit and Project/Grant lists and tick to select the default under the *Default* header for each

2.4 AMEND BUSINESS UNITS AND PROJECT GRANTS ASSIGNED TO CASUAL TEACHING EMPLOYEES

Employees enter timesheets in Human Force according to their business unit, project grant and role (location, department, and role). The role is equivalent to the pay code for casual teaching staff, or position title for casual general staff.

By adding a business unit and/or project grant to an employee, these will be available for them to select when entering their timesheet in their *Business Unit*: and *Project/Grant*: field drop down lists. **NOTE:** The business unit and project grant in bold is the default from the occupancy in Ascender Pay (Alesco).

2.4.1 Add/amend business units and project grants assigned to casual teaching employees

- From the Home page, select *Management>Employee Management*
- Search by *Employee Code*, *First Name* or *Last Name*. Search criteria will display. To select the employee double click using the mouse or click to select the employee and click [Edit]
- Select *Business Units*, *Project/Grant*, *Roles*

(00141598) Vincent Smith

NOTE:

- The business unit must be selected first and then the project grant to ensure a valid BU/PG combination
- Multiple business units and project grants can be selected by ticking those required
- If a project grant is not displayed, contact finance-transactions@uwa.edu.au as the project grant may not yet be active
- The default is in bold text. To change the default, click the circle under the *Default* header (*Business Unit* or *Project/Grant*). Alternatively, the default can be amended on the *Employment* screen

2.4.2 Remove a business unit and/or project grant for an employee

If the business unit and/or project grant are removed, they will not be available from an employee's drop down list when entering their timesheet.

- From the Home page, select *Management>Employee Management*
- Search by *Employee Code, First Name* or *Last Name*. Search criteria will display. To select the employee double click using the mouse or click to select the employee and click [Edit]
- Select *Business Units, Project/Grant, Roles*
- From the *Business Unit* header, locate the business unit name or project grant name from the *Project/Grant* header and unselect by clicking into the field to remove the tick and click [Apply]. Click [Done] to return to the Employee Management

2.5 ADD/AMEND CASUAL TEACHING PAY CODES FOR EMPLOYEES

Pay codes (roles) are linked to the activity being undertaken and will be available when the project grant is selected.

Staff Resources will maintain the roles which are available against each business unit/project grant combination.

NOTE: Roles for casual professional and general staff can't be added or amended in Human Force. These must be maintained in Ascender Pay (Alesco)

- From the Home page, select *Management>Employee Management*
- Search by *Employee Code, First Name* or *Last Name*. Search criteria will display. To select the employee double click using the mouse or click to select the employee and click [Edit]
- Select *Business Units, Project/Grant, Roles*

Cancel
Done

NOTE:

- The default is in bold text. To change the default, click the circle under the *Default* column next to the relevant *Role*
- When casual teaching staff are added, they will be assigned the role of '--'. Leave the '--' role ticked but ensure it is not the Default Role and that the required role is ticked. If the casual selects '--' on their timesheet, they will not be paid as it is not read by Ascender Pay (Alesco).

- If the required Role is not displayed contact timesheets-humanforce@uwa.edu.au requesting the Role be added to the BU/PG setup. Provide BU and PG name and numbers.
The Roles are a consolidation of all BU and PG's that are selected. It may appear as if the employee has access to the Role, but if they indicate they can't select it on their timesheet it is a set up with the BU and PG they're trying to enter a timesheet for. Only Staff Resources can add roles to a BU and PG.
- The Grade is equivalent to the job number in Ascender Pay (Alesco). This must be the job number of the current casual teaching job. If you are adding/amending casual teaching pay codes, it is important that this is correct to ensure the pay can correctly populate in Ascender Pay (Alesco). When you are adding new roles make sure the Grade is the same number that initially appears against the '-' field. If you are unsure, or if the Grade is displaying as 0 contact timesheets-humanforce@uwa.edu.au and ask for the job number of the current casual teaching job

To change the *Grade* or *Award Profile*, double click using the mouse on the *Role* to amend (*Basic Lecture* in the example below) and the *Update Profile, Rate and Grade* screen will display. Amend the *Grade* to be the same as the grade against the '-' role and click [Done]. Click [Cancel] to return to *Business Units, Project/Grant, Roles*. Click [Apply] If there is an error message which does not allow you to change the Grade, contact timesheets-humanforce@uwa.edu.au

2.6 CHECK QUALIFICATIONS FOR AN EMPLOYEE

It is the employee's responsibility to ensure their qualifications are kept up to date within Employee Self Service (ESS). Once added by the employee, Staff Resources will verify and approve which will update to Human Force overnight. The employee's qualifications affect the rate at which they are paid.

- From the Home page, select *Management>Employee Management*
- Search by *Employee Code, First Name or Last Name*. Search criteria will display. To select the employee double click using the mouse or click to select the employee and click [Edit]
- Select *Qualifications*. The qualification will be listed under the *Qualification Type* header. Click [Cancel] to return to Employee Management

The screenshot shows the 'Qualifications' section for employee (00141598) Vincent Smith. The interface includes a header with the employee's name and ID, followed by a list of tabs: Personal Details, Employment, Business Units, Project / Grant, Roles, and Qualifications (which is currently selected and highlighted in orange). Below the tabs is a table with columns: Qualification Type, Issue Date, Expiry Date, and Image. A single qualification is listed: 'Phd' with a small icon. To the right of the table are 'Delete' and 'Add' buttons. At the bottom of the table area are 'Apply', 'Cancel', and 'Done' buttons. Below the table area is a tab for 'Other Info'.

Qualification Type	Issue Date	Expiry Date	Image
Phd			

2.7 CASUAL EMPLOYEES NO LONGER EMPLOYED BY THE UNIVERSITY

When an employee is no longer employed, the termination date must be entered to Ascender Pay (Alesco). **Staff Resources** are responsible for adding termination dates in Ascender Pay (Alesco) and Human Force.

Contact Staff Resources or timesheets-humanforce@uwa.edu.au to advise the employee name, staff number and termination date.

NOTE:

- Once the termination date is entered into Human Force the employee will not be able to enter their timesheets. Allow time for them to enter their timesheets
- Many employees hold multiple casual jobs. If a job needs to be end dated you can do this by removing the relevant business unit, project grant and role
- Adding a new job to Ascender Pay (Alesco) creates a new record in Human Force, however removing a job in Ascender Pay (Alesco) does not remove the job in Human Force

2.8 APPROVE TIMESHEETS WHICH HAVE BEEN SUBMITTED BUT NOT APPROVED

The Supervisor responsible for approving timesheets is the Manager of the project grant. The PG Manager is responsible for expenditure, including casual timesheets. Supervisors must approve timesheets, however if they are unable to do so due to annual leave etc., they or an appropriate delegate such as a Head of School can give authorisation to approve timesheets on their behalf. This must be in writing as a Supervisor is unable to delegate within Human Force.

- From the Home page, select *Management>Period Authorisation*
 - In the *From:* and *To:* fields enter a wide date range in case timesheets from a previous period have been submitted (recommended 6 months prior). **NOTE:** the set date range will appear each time you login
This screen is a summary view that consolidates information for each employee and does not display each project grant and pay code separately.
 - To view details to approve a timesheet, click the *View timesheets details* icon 
- NOTE:** This step is necessary if the employee being supervised is paid from multiple project grants or paid using multiple pay codes

humanforce Home Employee Management Admin Reports

25/11/2019	09:00	17:00	30	7.5	UWA Law School	Teaching Law	Tutorial		

NOTE BEFORE APPROVING:

- The Business Unit, Project/Grant and Role displayed is an employee's default setting. To view where a timesheet has been coded to the timesheet needs to be reviewed
- For casual general staff, shifts greater than 5 hours require a break of at least 30 minutes to be taken
- The rates for Lectures and Tutorials include payment for contact and directly related non-contact duties. Only the scheduled contact hours should be entered in Human Force to ensure correct payment
- Ensure there is a role selected as a timesheet can be approved without a role. If the timesheet is approved without a role, it will not export to Ascender Pay (Alesco) and not pay the employee

d) To approve an individual timesheet, click the *Approve this timesheet* icon

NOTE:

- Ensure the documentation received from the Supervisor or an appropriate delegate as to why you are approving on their behalf is retained
- Timesheets must be approved by Monday 9pm of pay close week (refer to the HR Payroll Calendar on the Staff Intranet, Casual Timesheets page) to ensure all casuals are paid in the next available pay run
- If you have not been able to obtain approval from the supervisor or an appropriate delegate such as the Head of School you cannot approve the timesheets

3 WHERE DO EMPLOYEES AND SUPERVISORS FIND FURTHER INFORMATION

Information for casual employees and supervisors can be found on the Staff Intranet, Casual Timesheets page.

The Human Force training videos on timesheet submission and timesheet approval are on this page as well as links to log in to Human Force and Employee Self Service (ESS).

If you have further information, please contact timeshets-humanforce@uwa.edu.au
